

Bulk Dry Product Haulage

Bulk Dry Product Haulage

The founding division of the group, SADA's bulk dry product haulage division, Trazblend, has been in operation for over 35 years, specialising in the haulage of a range of bulk dry products for numerous clients in the Sydney and Illawarra regions.

Our company-owned, modern fleet of Kenworth prime movers currently haul in excess of 1,000,000mt of coal and other minerals and materials each year, with the volume constantly growing as more companies turn to SADA for the exceptional service we offer.

Accredited for Concessional Mass Limit (CML), SADA's Trazblend fleet offers a range of configurations including Tri-axle Tippers, Truck & Dog and B-Double's trailer configurations and provides the flexibility to meet any and every customer's specific requirements.

Our fleet is also accredited for Mass Management, enabling us to offer even greater cost-effectiveness to our clients.

To further meet the needs of our clients particularly in the resources sector, Trazblend also specialises in the haulage of heavy and oversized equipment.

Operated with the same focus on customer service, satisfaction and determination to deliver that SADA Group brings to every project, Trazblend offers a wide range of transport solutions and have become renowned for reliability, flexibility, on-time delivery and cost-effectiveness.

Offering a wealth of experience both in mine operation and in servicing the many needs of mining companies, SADA prides itself on being proactive in response to client requirements, with a quick decision making process born from years in the business. We understand projects from our clients' perspective and draw on our own knowledge and experience to think beyond the immediate and deliver trouble-free, seamless, integrated solutions on every project we undertake.
