

**Refuelling Services**

## Refuelling Services

SADA Group operates several specialised high-flow refuelling trucks which service road transport, off-road heavy equipment and rail transport providers.

Our skilled operators can deliver in the most demanding environments, negotiating rough terrain and working within limited space to ensure fuel delivery on even the most difficult sites.

Eliminating the need for the expensive downtime involved in moving equipment about on-site, SADA's refuelling services ensure on-time and reliable delivery whenever and wherever needed.

Offering a wealth of experience both in mine operation and in servicing the many needs of mining companies, SADA prides itself on being proactive in response to client requirements, with a quick decision making process born from years in the business.

We understand projects from our clients' perspective and draw on our own knowledge and experience to think beyond the immediate and deliver trouble-free, seamless, integrated solutions on every project we undertake.
